My Dad collected Dale Sr and had a wall of die casts, various standups, a race worn tire and any other things he could get his hands on. I like seeing Lee Petty, Richard Petty's father, on that the most as he passed away in 2000. Today's NASCAR diecast collection. Why? Because buying NASCAR diecast requires a significant investment. Long gone are the days when one could buy a new collectible NASCAR diecast for \$19. Buving a new 1:24 NASCAR diecast from Lionel (the current marketer of NASCAR diecast) will set you back \$55 for the base ARC model, and nearly \$100 or more if you want to purchase the even-more-collectible RCCA Elite model. Accordingly, today's diecast collector is much more likely to ask "What is the value of my diecast collection?" Fortunately, this is an easy question to answer. Diecast Registry (www.Diecast Registry.com) is the leading provider of racing diecast collection management tools, and their online diecast price guide is the most accurate and complete listing available. Simply add your diecast into your garage, and you will see the current market value of each diecast in your collection, as well as the overall value of your entire diecast Registry price guide - with their permission of course! Enjoy. Most Valuable NASCAR Diecast Dale Earnhardt Sr. #3 Brooks & Dunn 1998 Chevy Monte Carlo 1:24 Action RCCA Elite Prototypes are believed to have been made. To learn the values of more prototypes and samples, please see the www.Diecast Jimmie Johnson Lowe's 250th Start 2003 Chevy Monte Carlo 1:24 Action ARC Color Chrome This diecast diecast commemorates Jimmie Johnson's 250th NASCAR Cup Series start which took place in the Bank of America 500 at Charlotte Motor Speedway on Saturday October 11, 2008.
